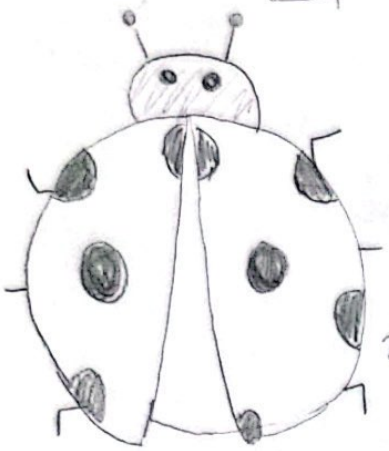
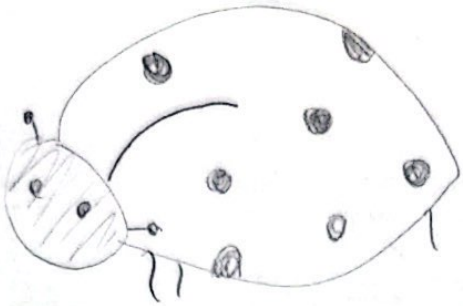
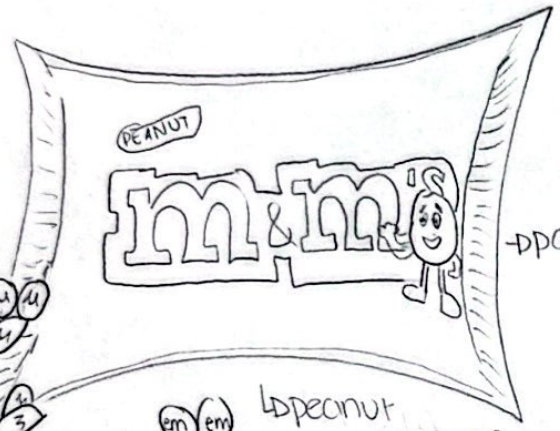
Love butterflies



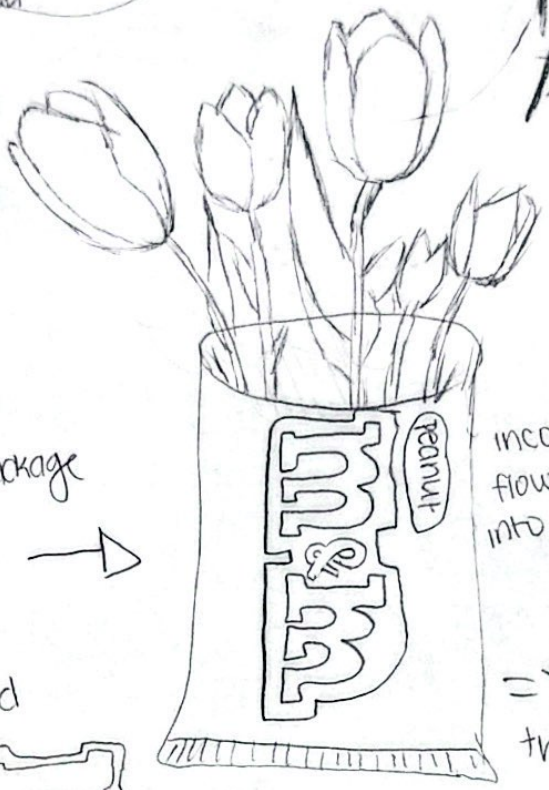


2 ladybugs & smth to do with luck? Nature?



+package

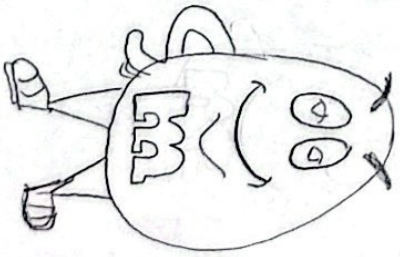
4 peanut m&m's because my nicknames as a kid were peanut & m&m



incorporating flowers / nature into the m&ms?

=> Don't love the way this looks

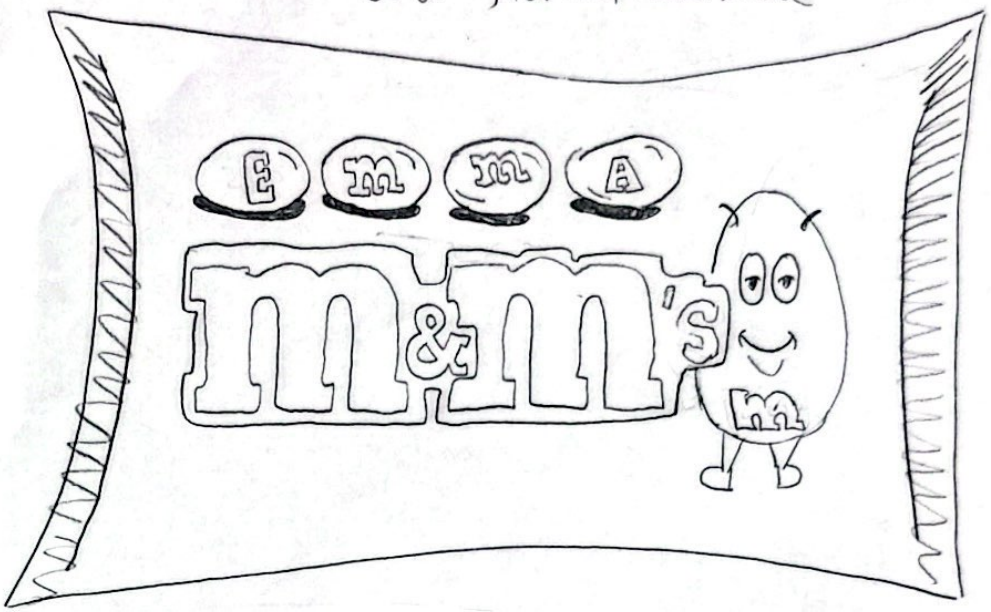
individual sketches of elements I want in my final



- Like including the name
- I wonder if not including package would look better

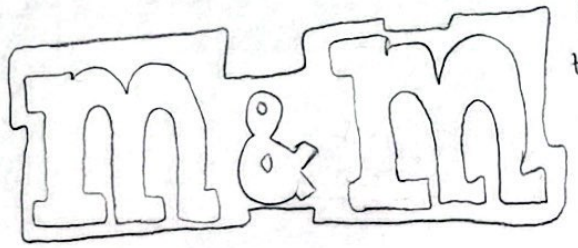
- colors? make m&m's multicolored

↳ incorporating my name into a symbol (m&m's) for my nickname



=> don't love the m&m person

↳ this is 100% going to be in final

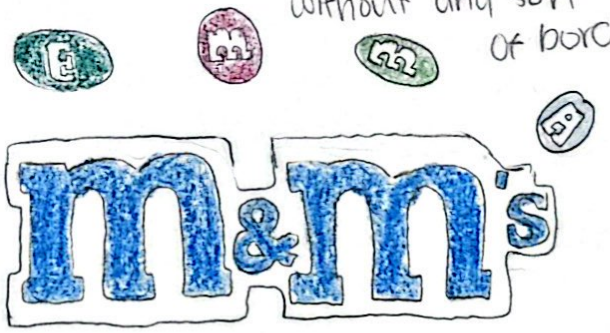


↳ make sure everything is shapes not individual lines

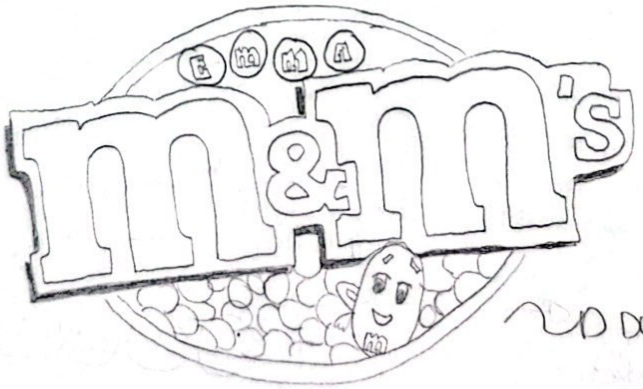
↳ change person?

Scanned with CamScanner

↳ I don't like this on its own without any sort of border



↳ putting logo in circle rather than package looks cleaner



↳ Don't love person

↳ I like the circular border as opposed to the package/no border

↳ I wish the bottom part was blank instead of being filled w/ m&ms

↳ I wonder if you can make the m&m person represent you
